DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 30, 2004 has been entered.

Acknowledgements

2. Applicants claim for priority under 35 U.S.C 119 is acknowledged. A certified copy of Japan 2000-403092 has been received.

Allowable Subject Matter

3. Claims 1, 3, 5-9 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Applicant's argument in response to the rejection of claims 4-6 and 8 in previous Office Action under 35 U.S.C 103(a) based upon Okada in view of JP5-305851 is persuasive. The current independent claim 1 has been amended to include the features of claims 2 and 4. Therefore, the prior art references either alone or in combination fails to disclose, suggest, or teaches a passenger's seat airbag device particularly comprising: wherein, in the preliminarily folded shape of the airbag, the portions of the peripheral wall portion on the left and right sides of the gas inlet port are so folded to form valley creases in the longitudinal direction that the intermediate portion of the flatly

extended passenger's side wall portion to the left and right edges is brought close to the gas inlet port and arranged at the peripheral edge of said gas inlet port on the side of said passenger's side wall portion, and wherein the portion of said peripheral wall portion near the joint to the upper edge of said passenger's side wall portion is folded to form valley creases in the transverse direction. These structures in combination with other structures as recited in claim 1 define over prior art of record.

Since, claim 1 is allowed, the remaining claims 3, 5-9 depend on claim 1 are allowed as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
